

# Gloucester Museum School introduces

## Rock Climbing Camp

This summer we are offering a Rock Climbing Camp  
with Herb Stillman as our "Technical Climbing Expert".

Herb comes to us with 30 years of expertise and passion within the realms of rock climbing, bouldering, orienteering, and a vast knowledge of the geology of Cape Ann and the Northeast Region.

This expertise has allowed us to branch out and expand on our rock climbing locales and techniques. For the summer of 2009, we have worked with Herb to develop an advanced climbing camp which is designed for repeat campers who have established their ability to climb intensively in new locales.

Herb will be working with us fulltime, as he also runs our technical climbs for Jr Sea Camp and Adventure Camp on the weeks that he is not running these four camps.

**"Rock On!"**

**4 one week intensive Rock Climbing Camps**

**(1) June 22-26 (2) July 6-10 (3) July 20-24 (4) Aug 3-7 (\$275/ week)**
